Subject Index

Abscess
differentiating pyopneumothorax and peripheral lung abscess: chest ultrasonography, 327(6):330–335
perinephric abscess from insulin syringe reuse, 327(1):47–48
zinc, iron, copper, selenium, lactoferrin, and ferritin in human pus, 327(2): 73–76

Activated partial thromboplastin time, prolonged, in pregnancy, 327(3):123–126

Adhesion molecules, correlation of neutrophil phagocytosis and lymphocyte adhesion molecules in exertional heat stroke, 327(2):68–72

Advance care planning, gender effects on, 327(1):25–32

Adverse drug effects
arterial thrombosis due to minimal change glomerulopathy secondary to nonsteroidal anti-inflammatory drugs, 327(6):358–361
coinfection with *Giardia lamblia* and *Clostridium difficile* after use of ranitidine, 327(2):91–93
dapsone-induced hypersensitivity pneumonitis mimicking *Pneumocystic carinii* pneumonia in patient with AIDS, 327(3):163–165
gatifloxacin and prolonged QT interval, 327(1):55–56
severe hyponatremia associated with combined use of thiazide diuretics and selective serotonin reuptake inhibitors, 327(2):109–111

Albuminuria, cigarette smoking exacerbates and its cessation ameliorates renal injury in type 2 diabetes, 327(2):57–67

Alcoholism, occidental beriberi and sudden death, 327(5):250–252

Allergic rhinitis, clinical implications of allergic rhinitis-asthma link, 327(3):127–138

Alstrom disease, mild form associated with metabolic syndrome and very high fasting serum free fatty acids: two cases diagnosed in adult age, 327(5):284–288

Amphotericin B, efficacy and safety of intradialytic administration of, 327(1):5–8

Anemia, chronic lead intoxication: an unrecognized cause of chronic kidney disease, 327(6):341–347

Angiogenesis, cardiovascular gene therapy, 327(3):139–148

Angiography
coronary stenting in an elderly patient with an acute myocardial infarction at left main trunk, 327(2):94–97
recurrence of pulmonary arteriovenous malformations in a female with hereditary hemorrhagic telangiectasia, 327(5):294–298
thromboangiitis obliterans (Buerger disease) in a female mild smoker treated with spinal cord stimulation, 327(6):365–368

Antihistamines, clinical implications of allergic rhinitis-asthma link, 327(3):127–138

Antihypertensive agents, association between hospital admissions and use of, in a managed care population, 327(6):310–314

Antimicrobial therapy
gatifloxacin and prolonged QT interval, 327(1):55–56
simultaneous presence of bla_{TEM} and bla_{SHV} genes on a large conjugative plasmid carried by extended-spectrum β-lactamase-producing *Klebsiella pneumoniae,* 327(3):118–122

Antiphospholipid antibody syndrome
manifesting as deep venous thrombosis and pulmonary embolism in a patient with HIV, 327(4):231–232
meningococcal purpura fulminans in a patient with systemic lupus erythematosus: mimic for catastrophic antiphospholipid antibody syndrome?. 327(6):373–375

Aortic stenosis
and autonomic dysfunction: co-conspirators in syncope, 327(5):281–283
timing of aortic valve surgery in chronic aortic stenosis and regurgitation, 327(6):348–351

Arrhythmias, gatifloxacin and prolonged QT interval, 327(1):55–56

Arteriovenous malformations, pulmonary, recurrence in a female with hereditary hemorrhagic telangiectasia, 327(5):294–298

Ascites, malignant, diagnosis in prostate cancer by measurement of prostate specific antigen, 327(5): 262–263

Asthma
clinical implications of allergic rhinitis-asthma link, 327(3):127–138
life-threatening hypokalemia in asthmatic patient treated with high-dose hydrocortisone, 327(3):152–155

Atelectasis, due to bronchial compression by the vertebral column, 327(5): 272–274

Autoimmune arthritis
additive role of innate and adaptive immunity in development of arthritis, 327(4):196–201
an analog peptide that suppresses collagen-induced arthritis, 327(4):212–216
collagen-induced arthritis mediated by HLA-DR1 (*0101) and HLA-DR4 (*0401), 327(4):169–179
disease-associated qualitative and quantitative trait loci in proteoglycan-induced arthritis and collagen-induced arthritis, 327(4):188–195
immunotherapy in collagen-induced arthritis, 327(4):217–226
introduction, 327(4):167–168
role of major histocompatibility complex genes in murine collagen-induced arthritis: model for human rheumatoid arthritis, 327(4):180–187
type II collagen autoimmunity in rheumatoid arthritis, 327(4):202–211

Autonomic dysfunction, and aortic stenosis: co-conspirators in syncope, 327(5):281–283

Bacteremia, and infective endocarditis in patients on hemodialysis, 327(5): 242–249

Beriberi, occidental, and sudden death, 327(5):250–252

Biological response modifiers, immunotherapy in collagen-induced arthritis, 327(4):217–226

Brain
hypopituitarism and diabetes insipidus with localized hypertrophic pachymeningitis associated with Hashimoto thyroiditis, 327(1):38–43
measles encephalitis and acute pancreatitis in a young adult, 327(5):299–303
posterior leukoencephalopathy and nephrotic syndrome, 327(3):156–159

Breast prostheses, silicone, systemic inflammatory diseases and: report of a case of adult Still disease and review of the literature, 327(2):102–104

Buerger disease, in a female mild smoker treated with spinal cord stimulation, 327(6):365–368

***Capnocytophaga canimorsus* sepsis,** with purpura fulminans and symmetrical gangrene following a dog bite in a shelter employee, 327(6): 369–372

Carcinomatous thromboangiitis, lymphangitis carcinomatosis of unknown origin presenting as severe pulmonary hypertension, 327(5): 255–257

Cardiac surgery
deep sternal wound infection caused by group G Streptococcus after open-heart surgery, 327(5):253–254

timing of aortic valve surgery in chronic aortic stenosis and regurgitation, 327(6):348–351
Cardiology Grand Rounds from the University of North Carolina at Chapel Hill, timing of aortic valve surgery in chronic aortic stenosis and regurgitation, 327(6):348–351
Cardiovascular health and disease
aortic stenosis and autonomic dysfunction: co-conspirators in syncope, 327(5):281–283
bacteremia and infective endocarditis in patients on hemodialysis, 327(5):242–249
cardiovascular gene therapy: angiogenesis and beyond, 327(3):139–148
Consortium for Southeastern Hypertension Control—10th Anniversary
abstracts, 327(5):236–241
COSEHC overview, 327(5):233
highlights of the national scientific session, 327(5):234–235
coronary stenting in an elderly patient with an acute myocardial infarction at left main trunk, 327(2):94–97
gender influences endothelial-dependent arterial dilatation via arterial size in youth, 327(6):305–309
hemorrhagic pericardial effusion causing pericardial tamponade in hereditary hemorrhagic telangiectasia, 327(3):149–151
timing of aortic valve surgery in chronic aortic stenosis and regurgitation, 327(6):348–351
unilateral pulmonary edema: rare presentation of congestive heart failure, 327(6):362–364
Case studies in ethics from the G.V. "Sonny" Montgomery VA Medical Center and the University of Mississippi Medical Center, medical errors and the trainee, 327(1):33–37
Clinical skills, pearls and pitfalls in patient care: need to revive traditional clinical values, 327(2):79–85
Clostridium difficile, coinfection with *Giardia lamblia* after use of ranitidine, 327(2):91–93
Coagulation, prolonged activated partial thromboplastin time in pregnancy, 327(3):123–126
Coccidioidomycosis, disseminated, hypercalcemia in patients with, 327(1):15–18
Collagen-induced arthritis
an analog peptide that suppresses collagen-induced arthritis, 327(4):212–216
collagen-induced arthritis mediated by HLA-DR1 (*0101) and HLA-DR4 (*0401), 327(4):169–179
disease-associated qualitative and quantitative trait loci in proteoglycan-induced arthritis and collagen-induced arthritis, 327(4):188–195
immunotherapy in, 327(4):217–226
introduction, 327(4):167–168
role of major histocompatibility complex genes in murine collagen-induced arthritis: model for human rheumatoid arthritis, 327(4):180–187
type II collagen autoimmunity in rheumatoid arthritis, 327(4):202–211
Computed tomography, high-grade neuroendocrine carcinoma of lung presenting an unusual spread mimicking pleural mesothelioma associated with dermatomyositis, 327(4):227–230
Consortium for Southeastern Hypertension Control—10th Anniversary
abstracts, 327(5):236–241
COSEHC overview, 327(5):233
highlights of the national scientific session, 327(5):234–235
Copper, zinc, iron, selenium, lactoferrin, and ferritin in human pus, 327(2):73–76
Coronary stenting, in an elderly patient with an acute myocardial infarction at left main trunk, 327(2):94–97
Corticosteroids
clinical implications of allergic rhinitis-asthma link, 327(3):127–138
life-threatening hypokalemia in asthmatic patient treated with high-dose hydrocortisone, 327(3):152–155
measles encephalitis and acute pancreatitis in a young adult, 327(5):299–303
Cultural effects, gender effects on advance care planning, 327(1):25–32
Cyst, echinococcal, inadvertent rupture of, 327(5):268–271
Cytokines
immunotherapy in collagen-induced arthritis, 327(4):217–226
type II collagen autoimmunity in rheumatoid arthritis, 327(4):202–211
Cytomegalovirus, successful treatment of Good syndrome with cytomegalovirus duodenoenteritis using combination of ganciclovir and immunoglobulin with high anti-cytomegalovirus antibody titer, 327(1):49–54

Dapsone, hypersensitivity pneumonitis induced by, mimicking *Pneumocystic carinii* pneumonia in patient with AIDS, 327(3):163–165
Decision making, pearls and pitfalls in patient care: need to revive traditional clinical values, 327(2):79–85
Delayed gastric emptying, in gastroesophageal reflux disease, 327(1):1–4
Dermatophytoses, frequency of culture-proven dermatophyte infection in patients with suspected tinea pedis, 327(2):77–78
Diabetes insipidus, and hypopituitarism with localized hypertrophic pachymeningitis associated with Hashimoto thyroiditis, 327(1):38–43
Diabetes mellitus
cigarette smoking exacerbates and its cessation ameliorates renal injury in type 2 diabetes, 327(2):57–67
contributions of weekly mean blood glucose values to hemoglobin A1c in insulin-treated type 2 diabetes: Diabetes Outcomes in Veterans Study, 327(6):319–323
perinephric abscess from insulin syringe reuse, 327(1):47–48
Dialysis patients
bacteremia and infective endocarditis in patients on hemodialysis, 327(5):242–249
effects of exercise on markers of lipid peroxidation in dialysis patients compared with control subjects, 327(1):9–14
intradialytic administration of amphotericin B, 327(1):5–8
Diarrhea
coinfection with *Giardia lamblia* and *Clostridium difficile* after use of ranitidine, 327(2):91–93
successful treatment of Good syndrome with cytomegalovirus duodenoenteritis using combination of ganciclovir and immunoglobulin with high anti-cytomegalovirus antibody titer, 327(1):49–54
Diuretics, severe hyponatremia associated with combined use of thiazide diuretics and selective serotonin reuptake inhibitors, 327(2):109–111
Dog bite
Capnocytophaga canimorsus sepsis with purpura fulminans and symmetrical gangrene following a dog bite in a shelter employee, 327(6):369–372
tenosynovitis caused by *Mycobacterium kansasii* associated with, 327(5):258–261
Drug interactions, induction of testosterone metabolism by esomeprazole in a *CYP2C19*2* heterozygote, 327(5):289–293

Echinococcal cyst, inadvertent rupture of, 327(5):268–271
Empyema, differentiating pyopneumothorax and peripheral lung abscess: chest ultrasonography, 327(6):330–335
Encephalitis, measles, and acute pancreatitis in a young adult, 327(5):299–303
End-of-life care, gender effects on advance care planning, 327(1):25–32
Endocarditis, infective, and bacteremia in patients on hemodialysis, 327(5):242–249
Epidemiology, clinical and epidemiologic features in 140 patients with lupus nephritis in a predominantly black population from one center in Kingston, Jamaica, 327(6):324–329
Esomeprazole, induction of testosterone metabolism by esomeprazole in a *CYP2C19*2* heterozygote, 327(5):289–293

Ethics, medical errors and the trainee: ethical concerns, 327(1):33–37
Exercise, effects on markers of lipid peroxidation in dialysis patients compared with control subjects, 327(1): 9–14
Extended-spectrum β–lactamase-producing bacteria, simultaneous presence of bla_{TEM} and bla_{SHV} genes on a large conjugative plasmid carried by extended-spectrum β-lactamase-producing *Klebsiella pneumoniae,* 327(3):118–122

Fenofibrate, effective in treating hypertriglyceridemia associated with HIV lipodystrophy, 327(6):315–318
Ferritin, zinc, iron, copper, selenium, and lactoferrin in human pus, 327(2): 73–76
Fibromuscular dysplasia, extensive, in a patient with Parkinson disease, 327(6):352–355
Free fatty acids, mild form of Alstrom disease associated with metabolic syndrome and very high fasting serum free fatty acids: two cases diagnosed in adult age, 327(5):284–288
Fungal infection
hypercalcemia in patients with disseminated coccidioidomycosis, 327(1): 15–18
intradialytic administration of amphotericin B, 327(1):5–8
laryngeal histoplasmosis, 327(3):160–162

Ganciclovir, successful treatment of Good syndrome with cytomegalovirus duodenoenteritis using combination of ganciclovir and immunoglobulin with high anti-cytomegalovirus antibody titer, 327(1):49–54
Gangrene, *Capnocytophaga canimorsus* sepsis with purpura fulminans and symmetrical gangrene following a dog bite in a shelter employee, 327(6):369–372
Gastrointestinal disorders
coinfection with *Giardia lamblia* and *Clostridium difficile* after use of ranitidine, 327(2):91–93
delayed gastric emptying in gastroesophageal reflux disease, 327(1): 1–4
successful treatment of Good syndrome with cytomegalovirus duodenoenteritis using combination of ganciclovir and immunoglobulin with high anti-cytomegalovirus antibody titer, 327(1):49–54
Gatifloxacin, and prolonged QT interval, 327(1):55–56
Gender effects
on advance care planning, 327(1):25–32
on endothelial-dependent arterial dilatation via arterial size in youth, 327(6):305–309
Genetics
cardiovascular gene therapy: angiogenesis and beyond, 327(3):139–148
induction of testosterone metabolism by esomeprazole in a *CYP2C19*2* heterozygote, 327(5):289–293
mild form of Alstrom disease associated with metabolic syndrome and very high fasting serum free fatty acids: two cases diagnosed in adult age, 327(5):284–288
role of major histocompatibility complex genes in murine collagen-induced arthritis: model for human rheumatoid arthritis, 327(4):180–187
simultaneous presence of bla_{TEM} and bla_{SHV} genes on a large conjugative plasmid carried by extended-spectrum β-lactamase-producing *Klebsiella pneumoniae,* 327(3):118–122
Geriatric patients
association of sociodemographic factors and patient attitudes on influenza vaccination rates in older persons, 327(3):113–117
coronary stenting in an elderly patient with an acute myocardial infarction at left main trunk, 327(2):94–97
rehabilitation and the older cancer patient, 327(2):86–90
Giardia lamblia, coinfection with *Clostridium difficile* after use of ranitidine, 327(2):91–93
Glucose, contributions of weekly mean blood glucose values to hemoglobin A1c in insulin-treated type 2 diabetes: Diabetes Outcomes in Veterans Study, 327(6):319–323
Good syndrome, with cytomegalovirus duodenoenteritis: successful treatment using combination of ganciclovir and immunoglobulin with high anti-cytomegalovirus antibody titer, 327(1):49–54
Guillain-Barré syndrome, predictive factors and long-term outcome of respiratory failure after, 327(6):336–340

Hashimoto thyroiditis, hypopituitarism and diabetes insipidus with localized hypertrophic pachymeningitis associated with, 327(1):38–43
Heart failure, congestive, unilateral pulmonary edema as rare presentation of, 327(6):362–364
Heat stroke, correlation of neutrophil phagocytosis and lymphocyte adhesion molecules in exertional heat stroke, 327(2):68–72
Hemoglobin A1c, contributions of weekly mean blood glucose values to hemoglobin A1c in insulin-treated type 2 diabetes: Diabetes Outcomes in Veterans Study, 327(6):319–323
Hemorrhage
hemorrhagic pericardial effusion causing pericardial tamponade in hereditary hemorrhagic telangiectasia, 327(3):149–151
prolonged activated partial thromboplastin time in pregnancy, 327(3): 123–126
Herbal medicine for weight loss, rhabdomyolysis in response to, 327(6): 356–357
Hereditary hemorrhagic telangiectasia
hemorrhagic pericardial effusion causing pericardial tamponade in, 327(3):149–151
recurrence of pulmonary arteriovenous malformations in a female with, 327(5):294–298
Histoplasmosis, laryngeal, 327(3):160–162
Hospitalization, association between antihypertensive agent use and hospital admissions in a managed care population, 327(6):310–314
Human immunodeficiency virus (HIV) infection
antiphospholipid antibody syndrome manifesting as deep venous thrombosis and pulmonary embolism in a patient with HIV, 327(4):231–232
dapsone-induced hypersensitivity pneumonitis mimicking *Pneumocystic carinii* pneumonia in patient with AIDS, 327(3):163–165
fenofibrate is effective in treating hypertriglyceridemia associated with HIV lipodystrophy, 327(6):315–318
Human leukocyte antigens
collagen-induced arthritis mediated by HLA-DR1 (*0101) and HLA-DR4 (*0401), 327(4):169–179
role of major histocompatibility complex genes in murine collagen-induced arthritis: model for human rheumatoid arthritis, 327(4):180–187
Hypercalcemia, in patients with disseminated coccidioidomycosis, 327(1): 15–18
Hypercapnia, acute hypercapnic respiratory failure due to thyrotoxic periodic paralysis, 327(5):264–267
Hyperkalemia, intradialytic administration of amphotericin B, 327(1):5–8
Hypersensitivity pneumonitis, dapsone-induced, mimicking *Pneumocystic carinii* pneumonia in patient with AIDS, 327(3):163–165
Hypertension
association between antihypertensive agent use and hospital admissions in a managed care population, 327(6):310–314
chronic lead intoxication: an unrecognized cause of chronic kidney disease, 327(6):341–347
Consortium for Southeastern Hypertension Control—10th Anniversary
abstracts, 327(5):236–241
COSEHC overview, 327(5):233
highlights of the national scientific session, 327(5):234–235
Hyperthyroidism, acute hypercapnic respiratory failure due to thyrotoxic periodic paralysis, 327(5):264–267
Hypertriglyceridemia, fenofibrate is effective in treating hypertriglyceridemia associated with HIV lipodystrophy, 327(6):315–318

Hypogammaglobulinemia, successful treatment of Good syndrome with cytomegalovirus duodenoenteritis using combination of ganciclovir and immunoglobulin with high anti-cytomegalovirus antibody titer, 327(1):49–54

Hypokalemia
- acute hypercapnic respiratory failure due to thyrotoxic periodic paralysis, 327(5):264–267
- life-threatening hypokalemia in asthmatic patient treated with high-dose hydrocortisone, 327(3):152–155

Hyponatremia, severe hyponatremia associated with combined use of thiazide diuretics and selective serotonin reuptake inhibitors, 327(2):109–111

Hypopituitarism, and diabetes insipidus with localized hypertrophic pachymeningitis associated with Hashimoto thyroiditis, 327(1):38–43

Hypotension
- aortic stenosis and autonomic dysfunction: co-conspirators in syncope, 327(5):281–283
- intradialytic administration of amphotericin B, 327(1):5–8

Immune system
- additive role of innate and adaptive immunity in development of arthritis, 327(4):196–201
- correlation of neutrophil phagocytosis and lymphocyte adhesion molecules in exertional heat stroke, 327(2):68–72
- zinc, iron, copper, selenium, lactoferrin, and ferritin in human pus, 327(2):73–76

Immunization, association of sociodemographic factors and patient attitudes on influenza vaccination rates in older persons, 327(3):113–117

Immunoglobulin
- acquired von Willebrand disease in patient with monoclonal gammopathy of undetermined significance, 327(2):98–101
- successful treatment of Good syndrome with cytomegalovirus duodenoenteritis using combination of ganciclovir and immunoglobulin with high anti-cytomegalovirus antibody titer, 327(1):49–54

Immunotherapy
- an analog peptide that suppresses collagen-induced arthritis, 327(4):212–216
- clinical implications of allergic rhinitis-asthma link, 327(3):127–138
- in collagen-induced arthritis, 327(4):217–226

Infection
- bacteremia and infective endocarditis in patients on hemodialysis, 327(5):242–249
- *Capnocytophaga canimorsus* sepsis with purpura fulminans and symmetrical gangrene following a dog bite in a shelter employee, 327(6):369–372
- coinfection with *Giardia lamblia* and *Clostridium difficile* after use of ranitidine, 327(2):91–93
- deep sternal wound infection caused by group G Streptococcus after open-heart surgery, 327(5):253–254
- differentiating pyopneumothorax and peripheral lung abscess: chest ultrasonography, 327(6):330–335
- frequency of culture-proven dermatophyte infection in patients with suspected tinea pedis, 327(2):77–78
- hypercalcemia in patients with disseminated coccidioidomycosis, 327(1):15–18
- inadvertent rupture of an echinococcal cyst, 327(5):268–271
- intradialytic administration of amphotericin B, 327(1):5–8
- laryngeal histoplasmosis, 327(3):160–162
- measles encephalitis and acute pancreatitis in a young adult, 327(5):299–303
- meningococcal purpura fulminans in a patient with systemic lupus erythematosus: mimic for catastrophic antiphospholipid antibody syndrome?, 327(6):373–375
- non-life-threatening sepsis, 327(5):275–277
- perinephric abscess from insulin syringe reuse, 327(1):47–48
- simultaneous presence of bla_{TEM} and bla_{SHV} genes on a large conjugative plasmid carried by extended-spectrum β-lactamase-producing *Klebsiella pneumoniae,* 327(3):118–122
- successful treatment of Good syndrome with cytomegalovirus duodenoenteritis using combination of ganciclovir and immunoglobulin with high anti-cytomegalovirus antibody titer, 327(1):49–54
- tenosynovitis caused by *Mycobacterium kansasii* associated with a dog bite, 327(5):258–261

Influenza vaccination rates, association with sociodemographic factors and patient attitudes in older persons, 327(3):113–117

Insulin therapy
- contributions of weekly mean blood glucose values to hemoglobin A1c in insulin-treated type 2 diabetes: Diabetes Outcomes in Veterans Study, 327(6):319–323
- perinephric abscess from insulin syringe reuse, 327(1):47–48

Iron, zinc, copper, selenium, lactoferrin, and ferritin in human pus, 327(2):73–76

Klebsiella pneumoniae, simultaneous presence of bla_{TEM} and bla_{SHV} genes on a large conjugative plasmid carried by extended-spectrum β-lactamase-producing *Klebsiella pneumoniae,* 327(3):118–122

Lactoferrin, zinc, iron, copper, selenium, and ferritin in human pus, 327(2):73–76

Laryngeal infection, histoplasmosis, 327(3):160–162

Lead intoxication, chronic, an unrecognized cause of chronic kidney disease, 327(6):341–347

Leukotriene modifiers, clinical implications of allergic rhinitis-asthma link, 327(3):127–138

Lipids and lipoproteins
- effects of exercise on markers of lipid peroxidation in dialysis patients compared with control subjects, 327(1):9–14
- fenofibrate is effective in treating hypertriglyceridemia associated with HIV lipodystrophy, 327(6):315–318

Lung disease
- antiphospholipid antibody syndrome manifesting as deep venous thrombosis and pulmonary embolism in a patient with HIV, 327(4):231–232
- atelectasis due to bronchial compression by the vertebral column, 327(5):272–274
- clinical implications of allergic rhinitis-asthma link, 327(3):127–138
- dapsone-induced hypersensitivity pneumonitis mimicking *Pneumocystic carinii* pneumonia in patient with AIDS, 327(3):163–165
- differentiating pyopneumothorax and peripheral lung abscess: chest ultrasonography, 327(6):330–335
- high-grade neuroendocrine carcinoma of lung presenting an unusual spread mimicking pleural mesothelioma associated with dermatomyositis, 327(4):227–230
- life-threatening hypokalemia in asthmatic patient treated with high-dose hydrocortisone, 327(3):152–155
- lymphangitis carcinomatosis of unknown origin presenting as severe pulmonary hypertension, 327(5):255–257
- recurrence of pulmonary arteriovenous malformations in a female with hereditary hemorrhagic telangiectasia, 327(5):294–298
- unilateral pulmonary edema: rare presentation of congestive heart failure, 327(6):362–364

Ma huang, rhabdomyolysis in response to weight-loss herbal medicine, 327(6):356–357

Magnetic resonance imaging
- high-grade neuroendocrine carcinoma of lung presenting an unusual spread mimicking pleural mesothelioma associated with dermatomyositis, 327(4):227–230
- longitudinal myelitis as initial manifestation of systemic lupus erythematosus, 327(2):105–108

Major histocompatibility complex
collagen-induced arthritis mediated by HLA-DR1 (*0101) and HLA-DR4 (*0401), 327(4):169–179
disease-associated qualitative and quantitative trait loci in proteoglycan-induced arthritis and collagen-induced arthritis, 327(4):188–195
role of major histocompatibility complex genes in murine collagen-induced arthritis: model for human rheumatoid arthritis, 327(4):180–187
Measles encephalitis, and acute pancreatitis in a young adult, 327(5):299–303
Mechanical ventilation, predictive factors and long-term outcome of respiratory failure after Guillain-Barré syndrome, 327(6):336–340
Medical education
medical errors and the trainee: ethical concerns, 327(1):33–37
pearls and pitfalls in patient care: need to revive traditional clinical values, 327(2):79–85
Medical errors, and the trainee: ethical concerns, 327(1):33–37
Medications
association between antihypertensive agent use and hospital admissions in a managed care population, 327(6):310–314
can prescription refill feedback to physicians improve patient adherence?, 327(1):19–24
coinfection with *Giardia lamblia* and *Clostridium difficile* after use of ranitidine, 327(2):91–93
fenofibrate is effective in treating hypertriglyceridemia associated with HIV lipodystrophy, 327(6):315–318
gatifloxacin and prolonged QT interval, 327(1):55–56
induction of testosterone metabolism by esomeprazole in a *CYP2C19*2* heterozygote, 327(5):289–293
intradialytic administration of amphotericin B, 327(1):5–8
successful treatment of Good syndrome with cytomegalovirus duodenoenteritis using combination of ganciclovir and immunoglobulin with high anti-cytomegalovirus antibody titer, 327(1):49–54
Meningococcal purpura fulminans, in a patient with systemic lupus erythematosus: mimic for catastrophic antiphospholipid antibody syndrome?, 327(6):373–375
Metabolic syndrome, mild form of Alstrom disease associated with metabolic syndrome and very high fasting serum free fatty acids: two cases diagnosed in adult age, 327(5):284–288
Minicore-multicore syndrome, atelectasis due to bronchial compression by the vertebral column, 327(5):272–274
Minimal change glomerulopathy, secondary to nonsteroidal anti-inflammatory drugs, arterial thrombosis due to, 327(6):358–361
Monoclonal gammopathy of undetermined significance, acquired von Willebrand disease in patient with, 327(2):98–101
Mortality
Capnocytophaga canimorsus sepsis with purpura fulminans and symmetrical gangrene following a dog bite in a shelter employee, 327(6):369–372
occidental beriberi and sudden death, 327(5):250–252
Mycobacterium kansasii, associated with dog bite, tenosynovitis caused by, 327(5):258–261
Myelitis, longitudinal, as initial manifestation of systemic lupus erythematosus, 327(2):105–108
Myocardial infarction, coronary stenting in an elderly patient with an acute myocardial infarction at left main trunk, 327(2):94–97

Neoplasia
diagnosis of malignant ascites in prostate cancer by measurement of prostate specific antigen, 327(5):262–263
high-grade neuroendocrine carcinoma of lung presenting an unusual spread mimicking pleural mesothelioma associated with dermatomyositis, 327(4):227–230
lymphangitis carcinomatosis of unknown origin presenting as severe pulmonary hypertension, 327(5):255–257
rehabilitation and the older cancer patient, 327(2):86–90
Nephritis
clinical and epidemiologic features in 140 patients with lupus nephritis in a predominantly black population from one center in Kingston, Jamaica, 327(6):324–329
polymorphoneutrophilic infiltration in acute interstitial nephritis of Sjögren disease, 327(6):278–280
Nephrotic syndrome
arterial thrombosis due to minimal change glomerulopathy secondary to nonsteroidal anti-inflammatory drugs, 327(6):358–361
posterior leukoencephalopathy and, 327(3):156–159
Nonsteroidal anti-inflammatory drugs, arterial thrombosis due to minimal change glomerulopathy secondary to, 327(6):358–361

Omalizumab, clinical implications of allergic rhinitis-asthma link, 327(3):127–138
Orthostatic hypotension, aortic stenosis and autonomic dysfunction: coconspirators in syncope, 327(5):281–283
Oxidative stress, effects of exercise on markers of lipid peroxidation in dialysis patients compared with control subjects, 327(1):9–14

Pancreatitis, acute, and measles encephalitis in a young adult, 327(5):299–303
Paralysis, acute hypercapnic respiratory failure due to thyrotoxic periodic paralysis, 327(5):264–267
Parkinson disease, extensive fibromuscular dysplasia in a patient with, 327(6):352–355
Patient care, pearls and pitfalls: need to revive traditional clinical values, 327(2):79–85
Pergolide, extensive fibromuscular dysplasia in a patient with Parkinson disease, 327(6):352–355
Pericardial tamponade, hemorrhagic pericardial effusion causing pericardial tamponade in hereditary hemorrhagic telangiectasia, 327(3):149–151
Perinephric abscess, from insulin syringe reuse, 327(1):47–48
Phagocytosis, correlation of neutrophil phagocytosis and lymphocyte adhesion molecules in exertional heat stroke, 327(2):68–72
Physicians
can prescription refill feedback to physicians improve patient adherence?, 327(1):19–24
medical errors and the trainee: ethical concerns, 327(1):33–37
sudden painless vision loss caused by branch retinal artery occlusion: implications for primary care physician, 327(1):44–46
Posterior leukoencephalopathy, nephrotic syndrome and, 327(3):156–159
Potassium
acute hypercapnic respiratory failure due to thyrotoxic periodic paralysis, 327(5):264–267
life-threatening hypokalemia in asthmatic patient treated with high-dose hydrocortisone, 327(3):152–155
Pregnancy, prolonged activated partial thromboplastin time in, 327(3):123–126
Prostate cancer, diagnosis of malignant ascites in prostate cancer by measurement of prostate specific antigen, 327(5):262–263
Proteinuria, cigarette smoking exacerbates and its cessation ameliorates renal injury in type 2 diabetes, 327(2):57–67
Pulmonary edema, unilateral, rare presentation of congestive heart failure, 327(6):362–364
Pulmonary embolism, antiphospholipid antibody syndrome manifesting as deep venous thrombosis and pulmonary embolism in a patient with HIV, 327(4):231–232
Pulmonary hypertension, lymphangitis carcinomatosis of unknown origin presenting as, 327(5):255–257
Purpura fulminans
with *Capnocytophaga canimorsus* sepsis and symmetrical gangrene follow-

ing a dog bite in a shelter employee, 327(6):369–372
meningococcal, in a patient with systemic lupus erythematosus: mimic for catastrophic antiphospholipid antibody syndrome?, 327(6):373–375
Pyopneumothorax, differentiating from peripheral lung abscess: chest ultrasonography, 327(6):330–335

QT interval prolongation, gatifloxacin and, 327(1):55–56

Race/ethnicity
clinical and epidemiologic features in 140 patients with lupus nephritis in a predominantly black population from one center in Kingston, Jamaica, 327(6):324–329
gender effects on advance care planning, 327(1):25–32
Ranitidine, coinfection with *Giardia lamblia* and *Clostridium difficile* after use of, 327(2):91–93
Rehabilitation, and the older cancer patient, 327(2):86–90
Renal disease
arterial thrombosis due to minimal change glomerulopathy secondary to nonsteroidal anti-inflammatory drugs, 327(6):358–361
bacteremia and infective endocarditis in patients on hemodialysis, 327(5):242–249
chronic lead intoxication: an unrecognized cause of chronic kidney disease, 327(6):341–347
cigarette smoking exacerbates and its cessation ameliorates renal injury in type 2 diabetes, 327(2):57–67
clinical and epidemiologic features in 140 patients with lupus nephritis in a predominantly black population from one center in Kingston, Jamaica, 327(6):324–329
effects of exercise on markers of lipid peroxidation in dialysis patients compared with control subjects, 327(1):9–14
intradialytic administration of amphotericin B, 327(1):5–8
polymorphoneutrophilic infiltration in acute interstitial nephritis of Sjögren syndrome, 327(5):278–280
posterior leukoencephalopathy and nephrotic syndrome, 327(3):156–159
Respiratory failure
acute hypercapnic, due to thyrotoxic periodic paralysis, 327(5):264–267
predictive factors and long-term outcome of respiratory failure after Guillain-Barré syndrome, 327(6):336–340
Retinal artery occlusion, branch, sudden painless vision loss caused by: implications for primary care physician, 327(1):44–46
Rhabdomyolysis, in response to weight-loss herbal medicine, 327(6):356–357
Rheumatoid arthritis
additive role of innate and adaptive immunity in development of arthritis, 327(4):196–201
disease-associated qualitative and quantitative trait loci in proteoglycan-induced arthritis and collagen-induced arthritis, 327(4):188–195
hypopituitarism and diabetes insipidus with localized hypertrophic pachymeningitis associated with Hashimoto thyroiditis, 327(1):38–43
role of major histocompatibility complex genes in murine collagen-induced arthritis: model for human rheumatoid arthritis, 327(4):180–187
type II collagen autoimmunity in rheumatoid arthritis, 327(4):202–211

Selective serotonin reuptake inhibitors, severe hyponatremia associated with combined use of thiazide diuretics and, 327(2):109–111
Selenium, zinc, iron, copper, lactoferrin, and ferritin in human pus, 327(2):73–76
Sepsis
Capnocytophaga canimorsus sepsis with purpura fulminans and symmetrical gangrene following a dog bite in a shelter employee, 327(6):369–372
non-life-threatening, 327(5):275–277
Silicone breast prostheses, systemic inflammatory diseases and: report of a case of adult Still disease and review of the literature, 327(2):102–104
Sjögren syndrome, polymorphoneutrophilic infiltration in acute interstitial nephritis of, 327(5):278–280
Smoking
cigarette smoking exacerbates and its cessation ameliorates renal injury in type 2 diabetes, 327(2):57–67
thromboangiitis obliterans (Buerger disease) in a female mild smoker treated with spinal cord stimulation, 327(6):365–368
Southwestern Internal Medicine Conference, cardiovascular gene therapy: angiogenesis and beyond, 327(3):139–148
Spinal cord
longitudinal myelitis as initial manifestation of systemic lupus erythematosus, 327(2):105–108
thromboangiitis obliterans (Buerger disease) in a female mild smoker treated with spinal cord stimulation, 327(6):365–368
Still disease, systemic inflammatory diseases and silicone breast prostheses, 327(2):102–104
Streptococcal infection
deep sternal wound infection caused by group G Streptococcus after open-heart surgery, 327(5):253–254
non-life-threatening sepsis, 327(5):275–277
Surgery
deep sternal wound infection caused by group G Streptococcus after open-heart surgery, 327(5):253–254
timing of aortic valve surgery in chronic aortic stenosis and regurgitation, 327(6):348–351
Syncope, aortic stenosis and autonomic dysfunction: co-conspirators in, 327(5):281–283
Systemic lupus erythematosus
clinical and epidemiologic features in 140 patients with lupus nephritis in a predominantly black population from one center in Kingston, Jamaica, 327(6):324–329
longitudinal myelitis as initial manifestation of, 327(2):105–108
meningococcal purpura fulminans in a patient with: mimic for catastrophic antiphospholipid antibody syndrome?, 327(6):373–375

Tenosynovitis, caused by *Mycobacterium kansasii* associated with a dog bite, 327(5):258–261
Testosterone metabolism, induction by esomeprazole in a *CYP2C19*2* heterozygote, 327(5):289–293
Theophylline, clinical implications of allergic rhinitis-asthma link, 327(3):127–138
Thiamine deficiency, occidental beriberi and sudden death, 327(5):250–252
Thromboangiitis obliterans, in a female mild smoker treated with spinal cord stimulation, 327(6):365–368
Thrombosis
antiphospholipid antibody syndrome manifesting as deep venous thrombosis and pulmonary embolism in a patient with HIV, 327(4):231–232
arterial thrombosis due to minimal change glomerulopathy secondary to nonsteroidal anti-inflammatory drugs, 327(6):358–361
Thyroid disorders
acute hypercapnic respiratory failure due to thyrotoxic periodic paralysis, 327(5):264–267
hypopituitarism and diabetes insipidus with localized hypertrophic pachymeningitis associated with Hashimoto thyroiditis, 327(1):38–43
Tinea pedis, suspected, frequency of culture-proven dermatophyte infection in patients with, 327(2):77–78
Tolosa-Hunt syndrome, hypopituitarism and diabetes insipidus with localized hypertrophic pachymeningitis associated with Hashimoto thyroiditis, 327(1):38–43
Treatment adherence, can prescription refill feedback to physicians improve patient adherence?, 327(1):19–24

Ultrasonography
differentiating pyopneumothorax and peripheral lung abscess: chest ultrasonography, 327(6):330–335
recurrence of pulmonary arteriovenous malformations in a female with hereditary hemorrhagic telangiectasia, 327(5):294–298

Vasculature
antiphospholipid antibody syndrome manifesting as deep venous thrombosis and pulmonary embolism in a patient with HIV, 327(4):231–232
arterial thrombosis due to minimal change glomerulopathy secondary to nonsteroidal anti-inflammatory drugs, 327(6):358–361
extensive fibromuscular dysplasia in a patient with Parkinson disease, 327(6):352–355
gender influences endothelial-dependent arterial dilatation via arterial size in youth, 327(6):305–309
recurrence of pulmonary arteriovenous malformations in a female with hereditary hemorrhagic telangiectasia, 327(5):294–298
sudden painless vision loss caused by branch retinal artery occlusion: implications for primary care physician, 327(1):44–46
thromboangiitis obliterans (Buerger disease) in a female mild smoker treated with spinal cord stimulation, 327(6):365–368
Vision loss, sudden painless vision loss caused by branch retinal artery occlusion: implications for primary care physician, 327(1):44–46
Vitamin D, hypercalcemia in patients with disseminated coccidioidomycosis, 327(1):15–18
von Willebrand disease, acquired, in patient with monoclonal gammopathy of undetermined significance, 327(2):98–101

Weight-loss herbal medicine, rhabdomyolysis in response to, 327(6): 356–357

Zinc, iron, copper, selenium, lactoferrin, and ferritin in human pus, 327(2): 73–76
